

# Nutrition Tracker Week view-changes

- 1 Remove Sub nav including Tour
- 2 Remove social shares in left nav, including email
- 3 Remove Nutrition Chat in Right nav and insert standard right rail
- 4 Change Progress Tracker to Nutrition Tracker
- 5 Remove copy under Progress Tracker and Track your Nutrients copy in blue
- 6 Bread Crumb should read Nutrient Trends
- 7 Add CHOL between SAT FAT and SODIUM

The screenshot shows the South Beach Diet website's Nutrition Tracker page. The interface includes a top navigation bar with links like 'My Tools', 'Eat Right', 'Get Fit', 'Live Healthy', and 'Join In'. The main content area is titled 'Progress Tracker Nutrition Tracker' and features a section for 'Track Your Nutrients' with a table showing data for various nutrients over a 7-day period. The table has columns for dates (04/09 to 04/15) and rows for CAL, FAT, SAT FAT, SOD, CRB, FIB, and PRO. A red arrow points to the 'SAT FAT' row. A red button at the bottom says 'Log A Food To Get Started'. On the right side, there is a 'Nutritionist Chat' section with a 'JOIN US!' button. The page is annotated with numbered boxes (1-7) and red X's indicating specific changes to be made.

1. Remove Sub nav including Tour

2. Remove social shares in left nav, including email

3. Remove Nutrition Chat in Right nav and insert standard right rail

4. Change Progress Tracker to Nutrition Tracker

5. Remove copy under Progress Tracker and Track your Nutrients copy in blue
